## SKILLS

### Coding Languages

Dart, Java, Python, HTML, CSS, SQL

### Frameworks/Systems

Flutter, Android Native, Bootstrap, MySQL, SQL Server, AI, ML

## HOW TO REACH ME

Cell: +923069797441

Email: [inzimamb5@gmail.com](mailto:inzimamb5@gmail.com)

Address: Vehari, Punjab, Pakistan

GitHub: [@inzimambhatti](https://github.com/inzimambhatti)

Fiverr: [@inzimambhatti](https://www.fiverr.com/inzimambhatti)

LinkedIn: [@inzimam-bhatti-79b755172](https://www.linkedin.com/in/inzimam-bhatti-79b755172)

## EDUCATIONAL TRAINING

### COMSATS Islamabad -Vehari

BS. Computer Science (3.08/4.0 CGPA)

- Enrolled since June 2019 to June 2022
- Specialization courses in Mobile App Development & Backend Development
- Electives in Machine Learnings

### Udemy (Flutter)

CMAD (Certificate in Mobile Applications Development)

- Flutter Advanced Course 2022
- Flutter & Machine Learnings

### PFTP & SoloLearn (Android Native)

## MOBILE APPS WORKING AREA

### • Flutter Apps Development

- GetX full scalable
- GetX & Provider State Management
- UI/UX Designing
- Data Filtering & Modeling
- WebSocket's & API's Integration
- Animations Design & Development
- Solving painful points for clients
- Fixing Bugs & Customizations
- MVVM, MVC, GetX Architecture Pattern
- Firebase Backend with Fire store
- Google Maps Integration
- OTP & Authentications
- Push Notifications
- Flutter Local Notifications
- Media Player with dash video stream
- Voice & Video Call
- Machine Learning
- Fingerprint and other sensors
- SQLite offline databases
- Hive Database
- Building & Publishing to stores

### • Native Android Apps Development

- XML & Jetpack Compose UI
- Animations
- Navigations & Fragments
- State Management
- MVVM Architecture
- API's Integration
- Offline Databases & Caching
- Videography & Canvas
- Authentication (OTP, OAuth, Email)
- Firebase Fire store
- Push Notifications
- Ads integrations
- Generating App Bundles

## MORE INFORMATION

---

### WEB WORKING AREA

- **Web Apps Development**

- Flutter & Dart
- WordPress
- Wix
- Pk. Page

- **Working Area:**

- UI/UX designing
- Authentications
- Customization
- Fixing Bugs
- Maps
- Live locations
- Payments
- Forms
- Chats
- Support

### WEB RECENT PROJECTS

- **Portfolio Website**

- Using Wix.com  
[Here](#)

- **Chat Web App**

- Using Wix.com  
[Here](#)

- **COMSATS CS Course Data Management**

- **Technologies:**
  - HTML
  - CSS
  - Bootstrap
  - JavaScript
  - Google Drive (Database)[Here](#)

### CAREER SUMMARY

- **Freelancer at Fiverr & Upwork**

- 9-2020 to present (2 years)
- Mobile Apps Developer
- Working Projects:
  - Portfolio App
  - Ecommerce App
  - Educational App
  - Chat App
  - Web to App conversion
  - Fixing Bugs

- **Teacher at COMSATS -Vehari**

- 01-2022 to 06-2022 (6 months)
- Teaching Area:
  - Flutter frontend
  - Firebase backend
  - Dart backend
  - GetX State Management
  - Provider State Management
  - Stripe Payment
  - Firebase Authentications
  - Theme Management
  - Maps integration
  - Bugs Fixing

- **Teacher at High School**

- 04-2018 to 12-2018 (8 months)
- Computer Teacher

- **Blogger at Medium**

- 08-2022 to present
- Published an article in [Dev Genius](#)
- Article Topics:
  - Flutter Frontend
  - Full GetX based
  - Machine Learning
  - Google ML-KIT
  - Provider State Management
  - Firebase Fire store backend
  - Dart Backend
  - Authentication
  - Google Maps
  - Flutter Local & Push Notifications

## MORE INFORMATION

---

### MOBILE APPS RECENT PROJECTS

- **Final Year Project (E-Commerce)**

- 07-2021 to 06-2022
  - Application for Bid and Sale of Nontraditional Items
  - Flutter Android Application
  - Technologies:
    - Flutter Frontend
    - Full GetX based
    - Provider State Management
    - Firebase Fire Store Backend
    - Dart Backend
    - Stripe Payment
    - Google, Email, Phone Authentication
    - Google Maps
    - Flutter Local & Push Notifications
- [Here](#)

- **Machine Learnings (Flutter)**

- 07-2021 to Present
  - Google ML-Kit
  - GetX Pattern & State Management
- [Here](#)

### OTHERS

- **Languages**

- English
- Urdu
- Punjabi

- **Interest**

- Politics
- Cricket
- Music
- Travelling
- Animations
- Video & Photo Editing
- Technology

### MOBILE APPS RECENT PROJECTS

- **COMSATS Final Year Project Management System (Educational)**

- 07-2021 to 08-2021
  - Flutter Android Application
  - Technologies:
    - Student & Admin Panel
    - Flutter Frontend
    - Full GetX based
    - Firebase Fire Store Backend
    - Excel Sheet Processing as I/O
    - Dart Backend
    - Google, Email, phone Authentication
    - Flutter Local & Push Notifications
- [Here](#)

- **Grocery Store (E-Commerce)**

- Android Application
  - Technologies:
    - Admin panel
    - XML Frontend
    - Barcode Scanning
    - Firebase Real Time Database
    - Java Backend
    - Email Authentication
    - Notifications
- [Here](#)

- **Pregnancy Tracker (Health Care)**

- Android Application
    - XML Frontend
- [Here](#)

- **Other Small Projects (Flutter)**

- Dice Game App
  - COMSATS CGPA Calculator
  - Online & Offline Quiz App
  - All in one GetX
- [Here](#)
